👤 PROFILE

I am a graduate student on the Master of Software Engineering for the Cloud, interested in **JavaScript** technologies and the **Dot Net platform**, ready to take on more challenges in my career.

📁 PROFESSIONAL EXPERIENCES

Requirement Admin - End-of-study internship,
Lear Corporation 📄

03/2022 – present

Rabat Technopolis Sala Al Jadida, Morocco

Design and optimization of a requirements export system

- Integration with IBM Rational DOORS
- Optimization of the export process
- Creation of a command line application and web server for exporting requirements

Used technologies: DXL | IBM Rational DOORS | Interop | C# | EF Core | ASP.NET | OSLC

🧠 SKILLS

Programming Language (C# | Java | JavaScript | Typescript | Python | DXL | C++)

Platforms (Dot Net | NodeJs | JEE)

Framworks (React Js | NextJs | Express Js | ASP.NET | .Net Core | Entity Framework | Spring Boot | Tailwind CSS | QT | PyQt5)

Web development (HTML | SCSS | JavaScript | Typescript | EJS | JSP/Servlet | Material Ui)

Databases (MongoDB | MySQL | SQL Server)

Environments (Ubuntu | Windows(7, 10, 11))

Virtualisation (Docker | VirtualBox)

Writting & design (MS Word | MS PowerPoint | MS Excel | Figma | Inkscape)

Tools & Miscellaneous (VS Code | Visual Studio | IntelliJ IDEA | Rider | DataGrip | PyCharm | Git | Github)

🎯 INTERESTS

- Discovering and learning new technologies
- Sci-fi tv shows and movies
- Team Work

🎓 EDUCATION

Specialized Master Degree in Software Engineering for the Cloud, University Ibn Tofail
2021 – 2022 | Kenitra, Morocco

Bachelor of Fundamental Studies in Mathematical and Computer Sciences, University Ibn Tofail
2019 – 2020 | Kenitra, Morocco

Diploma of General University Studies (DEUG), Mathematics and Computer Science, University Ibn Tofail
2018 – 2019 | Kenitra, Morocco

Scientific Baccalaureate (series C), Les Amis de l'école
2015 – 2016 | Moroni, Comoros

📁 PROJECTS

Data-translate, Creation of a dataset of sentences French - Comorian 📄
01/2022 – present

The platform shows to users Sentences in French and give them the possibility of offering a Comorian translations.

- Technologies used: ReactJs(NextJs) | MongoDB | Material Ui | TailwindCSS | Docker

ACEM - Evote, Online vote secured for a student association called ACEM 📄
10/2021 – present (maintenance and integrations)

- **Technologies used:** NextJs | Typescript | TailwindCSS | SCSS | MongoDB | Open GPG | Docker

Covid-data, Desktop application that displays Covid 19 data 📄
12/2020 – 01/2021

- Technologies: Python | PyQt5 | Qss (Qt Style sheet)

FzNavigator, Web Browser 📄
02/2020 – 2020

A *simple* web Browser based on Chromium

- Technologies used: C++ | Qt5 | CMake

🌐 LANGUAGES

French (Current), **English** (intermediate), **Arabic** (Basic)
